C?																

This is the Result_all_plus15 document. These 15 marker locations and their values are available through the upgrade available at DNA Heritage. The purpose here is to find markers that will help distinguish the descendants of John II as being through one of his sons, James I, Rev. Sam, John III, Joel, and Nathan. This could also help determine where Jonathan (C7) fits as a descendant of William Sturdevant, 1675 Norwalk CT.
